This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

BIENNIAL MESSAGE

OF

JOSEPH W. FIFER,

GOVERNOR OF ILLINOIS,

TO THE

37TH GENERAL ASSEMBLY.

JANUARY 8, 1891.

SPRINGFIELD, ILL.
H. W. ROKKER, STATE PRINTER AND BINDER.
1891.

BIENNIAL MESSAGE.

EXECUTIVE DEPARTMENT,
SPRINGFIELD, ILL., January 8, 1891.

Gentlemen of the Senate and House of Representatives:

In compliance with the constitution, I have the honor to submit for your consideration, my biennial message. I shall not, in this communication, attempt to discuss in detail every question likely to become the subject of legislation at the present session, nor shall I protract unduly what I have to say, by a reference to facts falling peculiarly within your own knowledge or that can be readily ascertained by an examination of the reports made to me in obedience to law by the state officers, and those in charge of the various institutions of the state, which reports, for your convenience and information, have been printed and will, in due time, be laid before you. I shall refer to such facts and make such suggestions only as seem of most importance and as are calculated to aid you in the discharge of the responsible duties of the session now opening.

It is gratifying to note that Illinois ranks first in agriculture and third in manufacture and population, among the states of the Federal Union. The past two years have witnessed a steady and substantial growth in wealth, population and commercial influence. The laws have been obeyed, and peace, good order and abundance have prevailed throughout our borders. The judiciary of the state continues to hold that high place in the public confidence so essential to a proper discharge of its important functions. These facts form fitting subjects for congratulation, demonstrating as they do the capacity of the people to govern themselves.

Not to any one industry, but to all combined, are we indebted for our great progress. The farmer who sows and reaps; the merchant who facilitates exchanges; the capitalist whose money builds and equips our railroads; the carpenter and mason who build, and the artist who beautifies our homes; the miner whose toil unlocks the secret store-houses of nature; the quarryman who drills in stone; the trainmen who run the flying trains; the common laborer who digs our canals and does the heavy

drudgery of the warehouse and the street; these and many others have contributed each in his own way to our great wealth and progress and deserves, and will, I doubt not, receive your most careful and thoughtful consideration. They form an indispensable part of our industrial system and constitute the means by which, under a laudable competition, our state is to be brought to a yet higher standard of industrial excellence. Emulation without envy, and competition without detraction, should mark the intercourse of all our people.

THE PENITENTIARIES.

One of the most important questions to which I invite your attention, and which will demand your most serious consideration, in view of the recent constitutional amendment forbidding contract labor, is the disposition that is to be made of the prisoners confined in the penal institutions of the state, on the expiration of the contracts under which they are now employed. These institutions are being conducted with prudence, wisdom and economy. They were never in a better condition and the management will bear the most rigid scrutiny. During the last year the Northern Illinois Penitentiary has been self-sustaining, and the one at Chester nearly so.

I shall speak of these institutions separately, beginning with the Illinois State Penitentiary located at Joliet. There were, on the first day of October, 1890, 1,365 convicts confined in this institution, contracts for the labor of 305 of whom expired August 1, 1889; and on July 1, 1890, other contracts expired for the labor of 125 additional convicts, making the total number of convicts released from contract labor up to this time, 430. Of the contracts yet in force, seven will expire on October 1, 1892, releasing 472 convicts, and the remaining contracts, seven in number, will expire on October 1 and November 1, 1894, releasing 269 more. These 741 prisoners are now employed under existing contracts and are each earning on an average, about sixty cents per day.

The disposition that has been made of the convicts already released by the expiration of contracts and the reasons for the plan adopted, is best told in the language of the Commissioners themselves, in their report made to me under date of October 1, 1890. They say:

"We have given serious consideration as to the best plan for employing these prisoners. Work of some character is essential. The prisoners themselves prefer it, and the ill-success of the experiment of keeping convicts idle in New York prisons proves the necessity of it. The question arises: What system of work shall be adopted? During the time the convicts in this institution were employed on the state account system, appropriations from July 1, 1867, to November 30, 1871, not inclusive of appropriations for permanent improvements, were made for this penitentiary by the General Assembly, amounting to $632,644.89. The prison fell short of being self-sustaining during the same period in the sum of $544,699.22. The approximate loss sustained during the same time for bad debts was $65,801.06.

In view of the disastrous financial results while this system was in operation, and the fact that under contracts yet in force whereby the entire available shop-room of the prison will be in use for the next two years at least, and the still further fact that at the last General Assembly of the State, a joint committee of five was appointed to visit and investigate our own prisons and the prisons and prison systems of the other states, and report to the next General Assembly, recommending such a law as shall secure to us the best methods for the general management of our penitentiaries whenever the present contract system shall expire, we have hesitated to anticipate the action of the General Assembly by adopting any permanent system of labor, but have deemed it best while awaiting the action of the General Assembly, and to save the state from loss in the interim, and also looking to the health of the convicts, to enter into agreements for the employment upon the piece price plan, of all convicts whose labor is not required under unexpired contracts or in performing the necessary work of the prison, which agreements were made subject to approval of the General Assembly or amendment by legislative enactment providing for the adoption of a system of labor."

Here then, we have a clear, concise statement of what has been done, and cogent reasons given for the plan adopted. If the General Assembly is not satisfied with the course pursued and wish to change it, the way is open. The convicts can be allowed to lie idle, or they can be employed on the state account system, as formerly. The health and morals of the convicts, no less than existing laws, forbid the adoption of the former course. And the second will require a large appropriation of money for the purchase of machinery and tools and also for the purchase of raw materials out of which the manufactured goods are to be made. A market must also be found for the manufactured articles, and the state, having no established trade, like that enjoyed by the present contractors, must employ men to sell the goods and to build up and expand the trade of the institution. During the time required for this, and until the state begins to realize on sales, the entire expense must be borne by appropriations made from the public treasury. After all this has been accomplished, the question remains: Can the state go into the markets and sell the manufactured articles to advantage; can it sell at the prices at which they are now sold by the present contractors, each of whom has a large and well-established business of his own? If this cannot be done, then should the convicts be employed in manufacturing on state account, the competition would, unavoidably, work greater hardship to the labor of the outside world than it now does under the present contract system.

On the 1st day of October, 1890, there were confined in the Southern Illinois Penitentiary, 667 convicts, only 125 of whom are working under contract, and this, the only remaining contract, will expire on the 30th day of June, 1894. Two contracts have already expired, one on the 1st day of July, and the other on the 1st day of August, of 1890, releasing in all 250 convicts. And I will add that by the expiration of these contracts, the earning capacity of the prison has been reduced in the sum of $36,000 annually.

The convicts not working under unexpired contracts, are employed in building the institution for insane criminals provided for by the last General Assembly, in making brick, cultivating the farm, and in and about the Warden's house and the other departments, of the institution. For a detailed statement of the condition and present needs of this institution, I respectfully refer you to the Warden's report, and that of the Commissioners, and commend to your favorable consideration the wise suggestions which they contain. I especially urge that the capacity for the manufacture of brick be at least doubled, as by this means from 50 to 75 additional convicts can be, with a small expense, profitably employed. Much time and money has been spent by the state in building up and expanding this industry, and now, after the lapse of many years, it has been brought to a high degree of perfection, and the trade largely extended. It is believed that it affords one of the best means for the employment of convicts in the future. The appropriations asked for by the Commissioners of both these institutions seem reasonable, and I recommend that they be allowed.

From the foregoing facts it would seem then, that hereafter a large number of convicts confined in our penitentiaries must lie idle unless the State makes appropriations sufficient for the purchase of machinery, tools and raw materials, thereby enabling the commissioners to manufacture on state account.

As a number of contracts will not expire for years to come, it is for this General Assembly to determine whether it is expedient to continue until that time the piece price plan which has been temporarily adopted by the Commissioners in the penitentiary located at Joliet. Such a course could not, in any event, result in loss to the state. Whatever system of labor is adopted, due care should be taken that the labor of these convicts is made to compete as little as possible with the free labor of the state.

The facts and suggestions here presented, taken with those contained in the reports of the officers of these institutions, will furnish a sufficient basis for intelligent action on the part of the General Assembly, to whose enlightened judgment and sound discretion I submit this difficult problem for solution.

PRISON REFORM.

I have thus discussed the condition of the Illinois prisons so far as concerns their fiscal and industrial relations. I can not, however, turn from this most important topic, without reminding you that there is another and far higher phase of this subject of prison management which should claim your most humane consideration. To this higher phase of the question I will now, in very general terms, invite your attention.

I am exceedingly unwilling that the proud commonwealth of Illinois should, in any of its departments, rest content with a showing of progress that is merely material, or which can be

fully expressed and tabulated in the report of the assessor and the census taker. Proud, as we have a right to be, of our material growth, we should never forget that all our tabulated wealth and material potencies constitute no more than a broad foundation on which to organize and securely found higher and better forms of progress. Nor should we forget that opportunities for honorable achievement in the moral world, when unimproved, become the badges of failure and disgrace.

In no department of state regulation and police activity, do the humanities, in my judgment, find a wider field for intelligent exercise than in the great movement toward prison reform which now engages the attention of many of the first philanthropists of the age. The character of the reforms inaugurated and the results of the work accomplished in some sister states of the Union, are doubtless well known to most of you and need not be here recited at length.

The fundamental error which a true prison reform must correct is that which treats with indiscriminate rigor all who violate the criminal code, and which, in the promiscuity of a common degradation, drives every prisoner of state into a forced and life-long war against society. It is the bane of our police regulations that they know but two classes: Those who break and those who observe the cold letter of the law. Of past opportunities, of moral capacity, of the palliations of environment, of degrees of moral turpitude, our system takes no account whatever. We deliberately draw a dead line, and he who crosses over, if detected, falls at once into a gulf as black and bottomless as death. We refuse to recognize, in a legal way, the patent fact that in many cases those who step across this line are not morally worse than many others who dally along its edge and barely miss taking the one fatal step, or who, taking that step, have the good fortune to do so when the police are not on guard.

We forget, too, that many of the most dangerous enemies of society utter long prayers in the distant and secure citadel of legal favor, and have learned to avoid overt acts of recognized criminality.

One who has had experience with the promiscuous class which we call "criminals" well knows there is a time in the life of many a young man, when even trivial circumstances may send him either in the direction of success and honor, or in the direction of crime and its present consequent moral death. For such, our laws, it seems to me, make no adequate provision.

Allowing full force to the great fact of heredity, now being wisely recognized, it may be said that men no more become hardened felons and enemies of society in a day, than they are able to purify their souls to immaculate whiteness in the same brief period.

Two young men of about equal inherited tendencies and equal moral education start together in the race of life. We

will suppose they do not belong to a high type of moral excellence, but they are such as society affords, and must be dealt with by our laws as they are. These young men, in thoughtlessness, or passion, or possibly from motives of a degree lower than these, may each commit a state's prison offense; but one is detected, while the other is so fortunate as to conceal his guilt. The one who is apprehended, is convicted of felony, and goes to the penitentiary, and when he enters there he leaves all hope behind. Practically, nothing remains to him but a lifelong war against society. The brand of Cain is henceforth upon him. His one fatal step has brought upon him the calamitous necessity of going on in sin, and henceforth, from the fastnesses of crime, he makes periodical inroads upon a social order of which he forms no part. For him the word "home" is an empty sound. The church bells, summoning to the altar of devotion, find no echo in his heart. He is, in short, morally dead.

The other young man who started morally upon a plane with him may, through better luck, find honorable employment, and with the gathering moral support of association, which the other lacked, may ultimately achieve success, finally passing on to the position of secure and respected citizenship.

If such cases may occur (and that they do occur thousands can testify) is there not something radically wrong with our penal system? Is not the state in some degree responsible for the fall of one of these young men, while deserving no credit for the preservation and success of the other?

It is a recognition of the injustice which condemns all degrees of criminality to wear alike the scarlet letter of indiscriminate disgrace, which has led many humane judges of our state to exercise the questionable power of "suspending sentence" in the case of those young offenders whom they are unwilling to cast into the seething caldron from which none escape.

Obviously, infractions of the penal code can not be connived at by those officers whose duty is its enforcement. These can not exercise a discretion as to whom among offenders they will select for prosecution. All should, at the outset, be treated alike, and none that are guilty should escape. But I am convinced that sentences of imprisonment should be indeterminate as to time of punishment. The question for the trial court should simply be guilty or not guilty of the crime charged in the indictment, and the judgment of the court should record the result of a fair trial upon that question. The question of the length of punishment, with the minimum and the maximum terms provided in the statute, should be reserved for later determination in the light of developments and with due regard to the moral status and progress of the subject. The data on which the term of punishment could alone be intelligently determined, could not well be placed before the trial jury as evidence in court, even if competent under legal rules, and if this

could be done only omniscience could justly decide *in advance*, on any possible showing, how long any given prisoner ought to serve. The determination of this question of extent of punishment should be made to depend upon the mental and moral progress of each subject, to be ascertained under wise rules of discipline and after actual experience with each convict.

All this, I know, pre-supposes that the prison should be made within practicable limits a reformatory; and I venture the opinion that the penitentiaries of the land are destined in the near future to become as to all inmates, except the known incorrigible, places of mental and moral discipline, looking to the assistance as well as the punishment of the criminally unfortunate.

When this salutary reform shall be brought within practicable reach of our commonwealth. it will no doubt be wise to begin the reform by designating the present boys' reform school at Pontiac as a general reformatory, where the new and better deas of prison management may be applied to old as well as young, reserving the other prisons, temporarily at least, for the confinement of the obdurate and the hopeless. As to the feasibility of this plan, I invite your attention to the suggestions contained in the last report of the trustees of the Reform School. The transition must be gradual; but a beginning could be made in the manner suggested.

It is to me a source of regret that our state is now, as regards prison management, in a state of transition, made necessary by the recent constitutional amendment which may delay the trial of a system, which properly administered, would, I believe prove salutary, and in the end be of benefit to the state in a financial as well as a moral way. I could not, however, forgive myself, holding the views I do, if I failed in this first communication by message to the General Assembly, to direct attention to this subject, compared with which I hold no other of greater importance. And I do this in the desire that whatever may be your opinion as to the practicability of an immediate departure in the direction pointed out, you may at least do nothing which will, in the future, prove inconsistent with an early adoption of these salutary reforms.

I am not unaware that there are those who will say that regulations for the moral and educational improvement of prisoners, will be availed of most quickly and effectively by the worse instead of the better element; that it will offer a reward to hypocrisy and pretended reform, and that all efforts in the direction indicated are but attempts to realize the impracticable dreams of the enthusiast. The ill opinion of such, I am willing to accept complacently, with the single observation that an application of the same pessimistic logic would demolish the common school itself and would certainly abolish the Reform School at Pontiac, which the state has already established for juvenile offenders.

If these reforms are not undertaken by the present General Assembly, I recommend for immediate action the good policy of so changing the law as to invest the court instead of the jury, with the power to fix punishments in all cases. The presiding judge has at hand means of information bearing upon the proper degree of punishment which, as before observed, it would not be practicable, nor legally competent, to place before the jury which tries the question of guilt. I am satisfied, on facts learned from my visits to the prisons of the state, that punishments are fixed unequally, and that a great gain in the direction of justice would be secured under our system as it is, by an act transferring the power to fix punishments in felonies, from the jury to the court, where that power now rests in cases of misdemeanor. From information gained on my official visits to the penitentiaries, I am led to believe that provision should be made for proper defenses in cases of the poor and helpless. I am also convinced that the statute making the compensation of state's attorneys depend upon the number of convictions they are able to secure, is not wise, and should be modified so as to give the public prosecutors, a liberal, fixed salary, thus placing them more nearly in a judicial attitude in the discharge of their important duties. I submit, it is not fair to a state's attorney himself, thus to make his pay contingent on the securing of numerous convictions. He should be made to feel as free to discharge a prisoner, the justice of whose conviction is not apparent, as to convict one known to be guilty. While our state's attorneys are, as a class, of high character and would not, I am glad to believe, weigh grains of silver against ounces of blood, yet there is, it seems to me, something unworthy of the policy of a great state, thus to seek to put before a prosecutor, any motive, however small, other than the desire to faithfully discharge a public duty.

CHARITABLE INSTITUTIONS.

I commend to your most favorable consideration and liberal support, the charitable institutions of the state. For a full and complete exhibit of what the state is doing in this direction and the cost of this humane and beneficent work, I refer you to the exhaustive and luminous report of the state Board of Charities, together with the reports of the trustees of the several charitable institutions, copies of which reports I will cause to be laid before you at an early date.

For the year ending June 30, 1890, the average attendance at the Soldiers' and Sailors' Home was 789; at the Soldiers' Orphans' Home, 313; at the four hospitals for the insane, 3,701; at the Institution for the Education of the Deaf and Dumb, 364; at the Institution for the Education of the Blind, 121; at the Asylum for the Feeble-Minded, 410; at the Eye and Ear Infirmary, 139; and at the Reform School, 359. Some of these institutions are over-crowded and there are many outside

to whom admission is refused for want of room. The management of our state charities will bear the closest scrutiny, and most critical inspection, and it is a pleasure to assert that the institutions devoted to the care of the unfortunate are of such a character as to merit the approval of all our people. Each in its sphere is accomplishing a good work and achieving the most gratifying results.

Their efficiency should not be impaired by insufficient appropriations, for they are, in a measure alleviating the wants of a large class of our fellow beings, whose helpless condition appeals to us for sympathy and charity. While extravagance in all departments should be carefully guarded against, nevertheless it would be false economy to cripple or enfeeble any part of the public service by failure to provide sufficiently for all reasonable demands.

I have received from the United States for the Soldiers' and Sailors' Home, the sum of $131,608.87, and the same has been turned over to the state Treasurer. This money has been transmitted by drafts, payable to my order as Governor, and I suggest that some action be taken whereby the money appropriated by the Federal government toward the maintenance of the inmates at the Home may be received directly by the state Treasurer.

STATE BOARD OF AGRICULTURE.

Illinois has greater natural resources and is capable of supporting a denser population than any other state in the American union. The fertility of her soil is unsurpassed by any in the world, and furnishes boundless resources for agriculture, which industry constitutes the real basis of our great wealth and prosperity. Realizing these facts, and with an earnest desire to promote the interests of the farmer, the stock raiser and the horticulturist, the General Assembly wisely enacted a law for the organization of the state Board of Agriculture, which board has for its object the development of these departments of our industrial structure. The law was amended in 1877 and is now sufficient, it is believed, to enable the board to effectually discharge its responsible duties respecting these great industries.

At each session of the General Assembly for a number of years past, a small appropriation has been made to the board for the purpose of defraying its necessary expenses. The State Fairs, Fat Stock Shows, and Farmers Institute meetings in the congressional districts of the state, are all held under the auspices of this board. The gathering, compiling and publishing of information concerning the condition and yield of the principal crops raised in the state, during the growing seasons and immediately after the harvest, is also the work of this board. It may be said that in every instance the appropriation has been small when compared with the importance and magnitude of the work involved

and the great good accomplished through the well-directed energy and prudence of the gentlemen comprising the board. In no instance, I believe, have the annual appropriations exceeded $14,800, and $100 to each congressional district, this latter sum being for the purpose of defraying the expenses of farmers' institute meetings. This money, I am satisfied, has been wisely and judiciously expended. The board has fully met the expectations of the people, and the interests of agriculture, horticulture, manufactures and domestic arts have been greatly promoted by its intelligent action and ardent zeal in carrying out the purpose and objects of the law.

Since the organization of the board in 1853, it has disbursed $1,043,589, the greater portion of which sum is the proceeds from state fairs, fat stock shows, and other like sources. This large sum has been wisely, and, it is believed, profitably expended, and, in consequence, agriculture and all kindred pursuits have been largely benefited. I recommend that reasonable appropriations be made to enable the board to continue the good work in which it is now engaged.

LIVE STOCK COMMISSION.

The live stock interest of Illinois is greater, perhaps, than that of any other state, and well merits the enactment of wise laws for its protection and encouragement. The returns for the year 1890, show that the assessed valuation of the domestic animals of the state aggregate, in round numbers, $47,000,000, which is one-third of the assessed valuation of the entire personal property of the state. A realization of the vastness of this interest, coupled with the fact that the geographical position of our state is such that it is made the natural gateway for the live stock traffic of the great grazing districts of the west, whereby our own domestic animals are greatly exposed to infectious and contagious diseases, induced the Thirty-fifth General Assembly to establish a board of Live Stock Commissioners. This law was amended by the Thirty-sixth General Assembly, and its provisions are now ample, it is thought, to enable the board to protect this great and rapidly developing industry.

For years the much dreaded Texas fever, about the real nature of which but little is known, save that native cattle exposed to the fresh trail of southern cattle are condemned to almost certain death, has annually depleted the herds of this state. As a result of investigations and experiments made by the board, rules and regulations have been by them formulated and adopted for the safe conduct of the immense traffic in Texas and southern cattle, into or through this state during the seasons of the year when danger is to be apprehended, which rules the Thirty-sixth General Assembly enacted into law. A rigid and successful enforcement of these rules during the last year has kept the state practically free from the ravages of

this disease. The board has protected our herds from other contagious diseases, and it is believed also that the health of the people has in many instances been preserved by them. Within two years this board has condemned, slaughtered and destroyed for human food, no less than 2,548 head of cattle infected with actinomycosis, or lumpy jaw, a contagious disease which is capable of being communicated to other animals and to man.

I can not enter into a full discussion of the work that has been and is now being done by this board. But for a full history of its proceedings during the last two years I respectfully refer you to its report, which will be, in due time, laid before you. The effective work accomplished by the board in protecting the great live stock interest of the state fully justifies the wisdom of the General Assembly in the passage of the laws now upon the statute books and in making the liberal appropriations that have heretofore been placed at the disposal of the board, which appropriations, I am convinced, have been applied in the most economical manner consistent with an efficient discharge of its important duties.

It will be seen from the report referred to, what appropriations are required at the hands of the present General Assembly. The amounts asked for seem reasonable, and will be needed, I am convinced, if the efficiency and usefulness of the board is to be continued, and I, therefore, recommend that they be allowed.

BUREAU OF LABOR STATISTICS.

This is an era of official inquiry and investigation, and it is made so by a demand from every side for trustworthy information on which to base both legislation and intelligent opinion. It has thus happened that within recent years, all the more progressive states, as well as the federal government in its wider sphere, have established bureaus of statistics, and as the great problem of the day is the industrial one, these bureaus are especially commissioned to procure and publish statistical information on the condition of labor in the various states, and the country at large.

Illinois has not been behind other states in recognizing the value of impartial investigations in this field, and the bureau of Illinois is undoubtedly making contributions of material value to the statistics of the state and the country.

The report to be submitted to the present legislature, consists of an extended statistical presentation of the individual earnings of the coal miners of the state as shown by the pay rolls of the principal coal companies. This affords a broad basis of fact on which to formulate correct opinions and such legislation as the welfare of these industrious and worthy citizens may demand.

In the second division of this report will be found statistics relating to the private indebtedness of the people as shown by the court records of judgments rendered and of mortgages foreclosed. This feature is supplemental to the statistics of mortgages compiled for the last report of this bureau. And in connection with the indebtedness thus shown as resting upon the land of the state, statistics have, for the first time, been prepared, showing the actual value of the land as found in the records of deeds, made in the several counties.

This bureau also publishes annually, a compendium of the reports of the state inspectors of coal mines, containing very full information concerning the mineral resources of the state, the number, distribution and condition of mines, the prices of coal, the wages of miners and the conditions upon which they work.

The organization and maintenance of this bureau of economic information is entirely creditable to the state, and I doubt not, the members of both houses will recognize the wisdom of making liberal provisions for its future usefulness.

I call attention to what I said to the 36th General Assembly on the question of labor, and again urge that suitable legislation be had so as to secure to labor its just rewards.

THE ILLINOIS NATIONAL GUARD.

The strength of the Illinois National Guard is nearly 4,000, which is the limit allowed by law. This force is organized into two brigades, each brigade comprising three infantry regiments of twelve companies each and a battery of light artillery. At the close of the last encampment, which occurred in the summer of 1889, it had reached a high state of discipline and its general condition was perhaps never better than it was at that time. The 36th General Assembly very unwisely, it seems to me, greatly reduced the appropriation from what it had formerly been, and for this reason it was found impossible to hold the regular annual encampment for the year 1890.

Without any disparagement to this fine military organization, or the officers or men composing it, I feel sure that those who are in a position to know, will agree with me when I say that the failure to hold an encampment for that year has had a discouraging and demoralizing effect upon both officers and men, and that the interest, discipline and general condition of the troops are not what they would have been had the regular encampment, been held, and the men given the usual instruction and drill. I wish to say plainly, but with much earnestness, that if the general efficiency of the Illinois National Guard is to be maintained, provision must be made for holding annual encampments, where the different organizations composing it can be instructed and drilled, and where they will receive a military discipline that will prepare them to meet all emergencies and to act with promptness and decision when called upon to aid the

civil authorities in the execution of the laws and the preservation of the public peace. Unless provision is made for these annual encampments, officers and men alike will lose all interest in the National Guard, enlistments will cease and disintegration and disorganization will soon follow. I submit, is it wise; is it safe in the highest, best sense; is it economical, to allow this to happen?

It is proper that the people should demand that the laws in times of peace be executed by the civil authorities, and this is exactly what the statutes of Illinois provides shall be done. When the local authorities, the civil officers elected by the people, find themselves unable to execute the laws and preserve the peace, they are authorized to call upon the Executive, and he, in turn, calls to their aid the military, which is required to act in strict subordination to the civil authorities. So far as I am aware, there is no complaint among the people against this mode of preserving the peace. There are but few who are willing to resist the execution of the law when it is made apparent that resistance would be useless. Therefore the moral effect produced by the presence, or even the existence of the military, is generally sufficient to enable the civil authorities to preserve the peace without any resort to force.

Previous to 1887, there were just complaints that the functions of the civil officers of the state were being usurped by irresponsible and unauthorized bodies of private detectives, which fact induced the 35th General Assembly, acting upon the suggestion of my predecessor, to pass a law forbidding, under heavy penalties, the arming and parading of all such persons and their assumption to act as officers of the peace without warrant of law. This act has had the effect to remedy this evil, and since that time the enforcement of the law and the preservation of the peace have been committed, where they belong, to the duly constituted civil authorities of the state. And so long as these conditions exist, there will be no complaints, I predict, on the part of the people, even should it become necessary occasionally to call on the military to aid the civil authorities in the discharge of their duties, providing the military is subordinated to the civil authorities by wise laws enacted by the people for that purpose.

The able and exhaustive report of the Adjutant General will give you full particulars as to the condition and wants of this organization. The appropriations asked for in the report seem reasonable, and I recommend that they be allowed. The report also contains many wise suggestions looking to the future efficiency and usefulness of the Guard, which suggestions I commend to your most favorable consideration.

THE FISH COMMISSION.

The 35th General Assembly very wisely enacted a law enlarging the scope and powers of the Fish Commission and repealing

all other laws in conflict with the same. This law has greatly aided the Commission in the prosecution of its work. It has had the effect to encourage the propagation and cultivation of fish in all the waters of the state and has also greatly aided in their protection. With proper encouragement on the part of the General Assembly, in the way of reasonable appropriations, the fish supply of the state can be greatly increased, thus furnishing the masses of our people a healthful and most excellent food.

THE BOARDS OF PHARMACY AND DENTAL EXAMINERS.

The Boards of Pharmacy, and Dental Examiners, are both self-sustaining, and therefore do not require any appropriation at the hands of the General Assembly. The laws creating these boards and under which each is discharging its proper functions, have for their object the public good, and rest on both reason and experience. These boards are necessary agencies in the preservation of the public health. Each in its own way is accomplishing much good and deserves the continued encouragement of the General Assembly.

The present condition of the boards and the work accomplished by each since the last session of the General Assembly, can readily be found by an examination of their last biennial reports.

EDUCATION AND EDUCATIONAL INSTITUTIONS.

The estimated value of school property in the state at the present time is, in round numbers, $27,000,000. The total expenditures for maintaining the schools of the state from July, 1889, to July, 1890, amounted to $12,000,000. This latter sum was expended in the purchase of furniture and apparatus, in paying teachers, building school houses, making improvements, and in the purchase of books for poor children and for district libraries.

It is well understood that a large share of this large sum is taken by the state from the pockets of those who have no children of their own to be educated, and is justified only on the ground that all are, politically, at least, interested in the intellectual and moral development of each. If it is the duty of the taxpayer to bear this heavy burden, then there is a corresponding duty resting upon the state to see to it that the money is wisely and judiciously expended. How then can this duty be discharged unless the power to regulate the schools and to compel the attendance of children is exercised by the state? Unless the state has this power, it seems clear it has no moral or political right to levy taxes for school purposes at all. It must be manifest to all that if any considerable number of children are permitted to remain out of school, and to grow up in vice and ignorance through the neglect or indifference of

those having control over them, then the state is not discharging its duty to the taxpayer by making the best possible use of the money it compels him to pay. With an earnest desire to remedy any defects that might exist in the school laws of the State respecting these matters, the General Assembly passed what is known as the compulsory education law, whereby children between the ages of seven and fourteen years are required to attend some public or private school for at least sixteen weeks in each school year. Experience has shown that this law has been of great benefit not only to the public schools, but likewise to the private and parochial schools of the state. In 1888 there were 1,118,472 children in the state, of a school-going age, only 751,349 of whom were enrolled in the public schools, and 100,465 in the private schools, leaving 266,658 children who did not attend schools of any kind during that period. From general statistics at hand, I am convinced that at least one-half of the last named, or 133,329 children, were between the ages of seven and fourteen years, and should have attended some school, but did not.

Taking the statistics for the year ending June, 1890, there was a gain in the enrollment over the preceding year, of 16,454. In view of the character of the last winter, the bad roads and the prevalence of epidemics, this is certainly a very satisfactory showing. The increase in the attendance of pupils in the public schools during the last year is 20 per cent. of all the increase during the last ten years. That is, the increase for the last year is just double the average increase.

The private and parochial schools have been benefited by the law as well as the public schools. According to the available statistics, the number of pupils attending private and parochial schools from the year 1888 to the year 1889, had diminished. But from the year 1889 to the year 1890, there was an increase of such attendance, of 6,729.

This large increase in the attendance upon our schools must be very gratifying to the friends of education throughout the state. And it must be apparent to all from what I have said that this desirable result is mainly, if not entirely, due to the compulsory education law. There is no design on the part of the friends of this law to deal harshly or unjustly with the private or parochial schools, but rather to advance the cause of education by benefiting all of the schools of the state.

It is conceded, however, by all, that the law needs to be amended, since by its enforcement injustice, it is thought, has been caused in some instances. The law being a new one, perfection was scarcely to be expected, and that it should need amendment ought to occasion no surprise. Perfection in laws comes only after long trial and experiment. It is not claimed that the law is perfect, and nobody is more willing to amend it than its friends.

I conclude, therefore, that the general effect of the law has been good, and that in its essential features it should be maintained; but it should be amended so as to remove all just causes of complaint on the part of any of the citizens of the state.

The standard of excellence respecting our public schools is doubtless better than at any former period in the history of our state, and this result is largely due to the ability and efficiency of our present Superintendent of Public Instruction. This condition of our schools must be very gratifying, indeed, to the friends of popular education. The University of Illinois, located at Champaign, and the two normal schools, are in a thriving and prosperous condition, and they have, by the good work accomplished, fully vindicated the wisdom of the state in their establishment and support.

Closely connected with the educational institutions of the state stands the historical library, provided for by act of the last General Assembly. The library board, which has been appointed, is now fully organized and has already accomplished considerable in the way of establishing a library, such as is contemplated by the law. I recommend that further assistance be granted so as to enable the board to continue its work. The report of the board contains much valuable and interesting information, and will furnish facts sufficient for intelligent action on the part of the General Assembly.

REPORTS OF THE STATE OFFICERS.

The reports of the Secretary of State, Attorney General, Auditor of Public Accounts, Treasurer, and Superintendent of Public Instruction, contain much valuable information, and from them you will be advised respecting the condition of their offices. The respective terms for which the Superintendent of Public Instruction and the Treasurer were elected, having expired, my official relations with them are closed. I cannot, however, allow myself to separate from them without testifying to the faithful, efficient and fearless manner with which they have discharged every public duty.

Various and responsible duties have from time to time been cast by law upon the Auditor of Public Accounts; duties that do not, it would seem, properly belong to his office. In addition to his ordinary duties as Auditor, this officer is required to look after that large and ever increasing insurance business of the state; also the inspection of banks incorporated under our statute. Thus three offices have, in effect, been combined in one. That a proper discharge of the duties of bank inspector and commissioner of insurance requires some special training or qualifications, will be conceded by all who are in any way familiar with these subjects. Many of the states have separated these offices, and I recommend that a similar law be enacted by

the present General Assembly, providing for the election or appointment of a commissioner of insurance and bank inspector, and that such officer be required to perform all the duties that are now required of the Auditor respecting the insurance business of the state and the inspection of banks. I think it will be found that the fees earned by the office will make it self-sustaining, not only defraying the ordinary expenses for conducting the office, but will also pay the salary of the incumbent. Recent developments in the state prove the necessity for such an officer. The office for the transaction of the business should be located either at Springfield or in the principal city of the state where the bulk of the insurance and banking business is transacted. The state of Missouri has, I am informed, located the office of commissioner of insurance at the city of St. Louis.

Proper vouchers for all money paid out by the Governor from funds subject to his order, will be found on file in the office of the Auditor of Public Accounts.

I submit for your consideration, the following

ESTIMATES OF APPROPRIATION FOR THE YEARS 1891 AND 1892.

Legislative Department	$280,000
For the Executive Department, composed of the offices of Governor, Secretary of State, Auditor, Treasurer, Attorney General, salaries and expenses; also salaries and expenses of the several State boards, including Railroad and Warehouse, Canal, Labor, Live Stock, and Fish Commission; State Board of Agriculture, State Board of Equalization, State Board of Charities, and State Board of Health; State Entomologist, Mine Inspector and State Agents at Stock Yards	520,000
Judicial Department, salaries of judges, State's Attorneys, Commission of Claims and expenses	623,000
Carrying convicts to and from penitentiaries	40,000
Carrying convicts to and from reform school	10,000
Arresting and returning fugitives from justice	33,000
For public printing for all State purposes	40,000
For paper and stationery for the same	26,000
For binding	25,000
For Illinois National Guard	240,000
For Illinois State Penitenttary	100,000
For Southern Illinois Penitentiary, for ordinary expenses	200,000
For Southern Illinois Penitentiary, for special purposes	48,000
For Live Stock Commission, ordinary expenses	20,000
For Southern Normal University, ordinary expenses	52,460
For Illinois State Normal University, for current expenses, including one-half interest in the College and Seminary Fund	55,000
For University of Illinois, for ordinary expenses and salaries	61,200
For ordinary expenses and maintenance of inmates of four State Hospitals for the Insane, Deaf and Dumb, Blind, and Feeble-Minded Asylums, the Soldiers' Orphans' Home, the Charitable Eye and Ear Infirmary, State Reform School, and Soldiers' and Sailors' Home	1,950,000
For school purposes	2,000,000
Estimates for contingent appropriations for Illinois and Michigan Canal	40,000
For State Board of Health, contingent fund	10,000
For Live Stock Commission, contingent fund	100,000
Awards of Claims Commission	8,682

THE CLAIMS COMMISSION.

The Thirty-sixth General Assembly provided by law for the appointment by the Governor of a commission to hear and determine those claims against the state, which formerly found no other tribunal than the legislature itself, where the opportunity for their impartial consideration was not, it is believed, so good as would be enjoyed by a court established for the pur-

pose. In this step our state but imitated the prudence of the general government and many of our sister states, which have long had commissions of this character; and the experience of the past two years has, I think, justified the wisdom which prompted the General Assembly to provide for this tribunal. The evidence in support of claims which have been heard by the able board of commissioners appointed has been, undoubtedly, more carefully examined and more thoroughly sifted than a busy General Assembly could possibly have found time to do in the bustle and heat of a session, and the ends reached are more in harmony with justice. A class of speculative claims, which could hope for no status before a tribunal thus organized and proceeding according to legal forms, are, by such a regulation, placed where they will cease to annoy the General Assembly, to the expedition of legitimate legislative business.

The Claims Commission has, since its organization, allowed an aggregate of claims amounting to $8,682.00, which sum I recommend be appropriated for the payment of the several adjudicated claims embraced in the amount.

RAILROAD AND WAREHOUSE COMMISSION.

The able report of the Railroad and Warehouse Commission will be found to contain much information of a practical character which can but prove of great interest to the people of the state, and particularly instructive to those who make the laws. The limits of this communication do not permit me to comment in detail upon the important matters and wise suggestions contained in this report. I can not, however, refrain from expressing my hearty endorsement of those suggestions and recommendations which call for the passage of such laws as will secure greater safety to employes in the operation of railway trains and also increased security to the traveling public. Particularly am I impressed with what is said in this report upon the necessity of providing by statute for some way in which the great number of grade crossings in Illinois may be guarded by late and appropriate appliances, thus reducing the liability of accidents by collision of trains at such points, to the lowest possible minimum. I mention this particular subject, which will be found ably discussed in the report in question, because it bears so directly upon the public welfare and appeals to us all on the side of humanity. The entire report will be read by you, and its minor suggestions will, no doubt, receive from you the consideration their importance deserves without a separate mention of each in this message, which is not practicable.

THE ILLINOIS CENTRAL RAILROAD.

The Illinois Central railroad sustains such special relations to the state government of Illinois, in addition to those important

relations it shares in common with all other roads of the state, that its affairs may properly be made the subject of special mention in this message.

Under the wise provisions which retained to the state, in consideration of the franchise and valuable lands granted to this company, an interest to the extent of 7 per cent. of the gross earnings of the road, to be paid annually into the state treasury, there has been paid to the state, all told, for the years from 1855 to 1890, inclusive, the sum of $12,365,618.27. Upon the $40,000,000 of capital stock of the company paid in, there was paid as dividends in the same period, the sum of $64,782,357.75, showing that an amount slightly exceeding 19 per cent of the total paid as dividends on such $40,000,000 of paid in stock has been turned into the state treasury; or a sum equal to 16.03 per cent of the whole sum paid both to the state and upon stock. The last year, the state's 7 per cent. of gross earnings paid amounted to $486,281.13, and on said $40,000,000 of stock were distributed as dividends, $2,400,000, the state's portion being nearly 17 per cent. of the whole amount so paid. The showing for the last six months, ending October 31, 1890, gives the state as its 7 per cent. of earnings, $257,219.33, or at a rate which would make the income of the state from this source over half a million per year, exceeding in amount any other half year in the history of the road. The last year as a whole has yielded the state a larger revenue than any other year except 1865, which, coming in a period of war prices and inflation, hardly constitutes a fair comparison. On the whole, I think, the rapid increase of the state's revenues from this source in late years, rising as they have from $367,788.92 in 1885, to $486,281.13 in 1890, presents an encouraging prospect and speaks well for the efficiency of the present management of the company, under which, if continued, we may reasonably expect the annual revenues of the state from this source will not hereafter fall below a half million dollars. The further building of new competing lines of railroad, such as have of late years greatly reduced the gross earnings of the road below what they would otherwise have been, having now almost entirely ceased, there seems cause to hope for a gradual and healthy growth in the revenue of the lines in which the state will share with the owners of the stock.

THE ILLINOIS AND MICHIGAN CANAL.

The report of the commissioners, soon to be printed and laid before you, will furnish full and explicit information concerning the operation and present condition of the Illinois and Michigan Canal. The earnings for the last two years amount to $183,654.17. The total expenses for the same period amount to $170,646.27. On the 1st day of December, 1890, there was on hand $76,333.03, out of which sum there have been paid the monthly expenses for November of that year, amounting to

$7,200, which sum, together with the debts now being incurred for rebuilding aqueducts will reduce the sum on hand to about $60,000. Unless the usual contingent fund of $20,000 per annum is appropriated it is believed by the commissioners that it would be unwise to reduce the amount in the treasury much below what it now is. It has been the policy of former General Assemblies, to keep on hand a large contingent fund so as to enable the commissioners successfully to meet railroad competition and other contingencies likely to arise. It may be here stated, however, that in no instance has it been found necessary, I believe, to use any portion of this contingent fund and the same has uniformly lapsed.

The net earnings of the canal for the past two years amount to $5,807.90. This sum would have been much larger had it not been for the fact that expensive and much needed improvements have been recently made. It may be remarked that these improvements are of a substantial and permanent character.

The commissioners, in their report, represent that the lock gates at Henry and those at Copperas Creek are in bad condition and will have to be replaced with new ones, and that a new miter sill is very much needed at the latter place. Special appropriations are thought necessary for these improvements unless the usual contingent fund is provided for.

This canal in connection with the Illinois river, constitutes a system of water communication through our State and largely reduces freight along its line. The affairs of this great public highway have been, during the past two years, wisely and economically managed, and it is well worth the support and encouragement it receives at the hands of the state.

I will cause the report of the commissioners to be printed and in due time placed before you.

STATE BOARD OF HEALTH.

The state Board of Health has proved an efficient agency in the preservation of the public health. The able and prudent manner in which the affairs have been conducted during the past two years, entitle it to the renewed confidence of the people and the continued support of the General Assembly. In recent years much time has been devoted by the board to an examination of the water supply of the state and the pollution of its streams. A thorough study of the Illinois river basin has been made with a view to sanitary engineering, and the pollution of that stream by Chicago sewage has been the subject of continued investigation and consideration.

With the exception of the influenza, to a study of which disease the board devoted much time and thought, the health of the state has been unusually good. Diphtheria, scarlet fever and typhoid fever have prevailed at times in certain localities in the state, but were generally brought under control when the in-

structions of the board were obeyed. In many cases, the advice of the board was wholly disregarded and as a result, a spread of the disease usually followed. The law should be amended so as to make it obligatory upon the local authorities to report promptly all diseases of this character to the Board of Health. A law of this kind would enable the board to act promptly and efficiently in checking the spread of contagious diseases.

In addition to its other duties, the board has given considerable of its time and attention to the work of elevating the standard of the medical profession in the state, and as a result the interests of the afflicted have been conserved by driving from active practice many who were not qualified to belong to this highly useful and honorable profession.

The able reports made by the board from time to time contain valuable facts and statistics, and to these I respectfully refer you for more exact and complete information touching this very interesting and important subject.

The contingent fund appropriated by the last General Assembly has remained untouched, which proves that the board has conducted its affairs with prudence and economy. The usual appropriation is asked at the hands of the present General Assembly, and I do not see how it can be reduced without impairing the efficiency of the board.

THE WORLD'S COLUMBIAN EXPOSITION.

I invite your attention to the legislation which may be necessary to provide that Illinois may be represented in an appropriate exhibit at the great World's Columbian Exposition, which will be held in the city of Chicago in 1893. Although the next succeeding session of the General Assembly would in regular constitutional course be sitting some time before the opening of the fair, it would not be wise to leave any portion of the work required to that body. All needed preparations must be made long before it would be practicable to secure legislation from the General Assembly which will meet in January, 1893. I think it would be wise, perhaps, to raise a committee in each house, charged with the work of framing and reporting such legislation as may be deemed necessary touching this subject.

I cannot, I feel, too strongly press upon your notice the great importance that Illinois should rise to an appreciation of the opportunity this exhibition will afford her of showing to an audience comprising the entire world, the great extent of her natural resources and the wonders of her industrial progress. We have been highly honored by the selection of our metropolis by the lake as the seat of an exhibition which is to commemorate an event in which continents and hemispheres have a common part and interest. There should be no jealousies of section against section, or of country against city, which would prevent this occasion being met by our commonwealth

in a spirit worthy of the greatness of the historic event to be commemorated, and worthy too, of her own brilliant and matchless history. Only seventy-three years ago, Illinois, then but a rich wilderness, entered the Federal union, with a population so sparse as scarcely to attract the attention of the census taker two years later. Her great metropolis, now the site of what will undoubtedly prove the greatest exhibition the world has yet seen, was not for twenty years after the admission of the state, dreamed of as a great city. It illustrates well the possibilities of development which man, under the benign influences of free popular institutions, is able to achieve, that now a city of this infant commonwealth has been selected as the most appropriate spot on which to commemorate an event, the wonderful results of which are shared by the entire race.

It affords me pleasure to place upon record in this public manner my entire confidence in the management of this great enterprise. In the joint selection by the World's Fair Directory and the National Commission, of the Hon. George R. Davis, as Director General of the Exposition, a guaranty has been given that no advantage which can accrue from untiring industry, high integrity and a broad statesman-like comprehension of the true office and significance of the exposition in all its domestic and foreign relations, can now possibly be wanting. Such a selection invites, and ought to secure, the confidence of all.

Illinois' exhibit at this exposition should be a miniature of the state herself. It should show what we have done, what we now are, and what we have resources yet to accomplish in all departments of laudable human activity. Through the medium of such an exhibit we shall become known to all the world, and better known to ourselves, and the influence can but prove salutary and lasting upon our industries, our commerce and the intellectual and moral development of our people.

I have noted with mingled pride and satisfaction, the measures which have been wisely adopted to bring into the joint management of this exposition a large and representative body of American women, who are expected to give special attention to whatever appertains to the part and work of their own sex in the activities and civilization of the world. There is in this a peculiar propriety. If America enjoys one distinction more creditable to her than any of the other numerous points of her departure from old world ideas, that distinction is found in the universal respect here paid to the character of women, and the liberal share here accorded them in shaping the thought, the morals and the institutions of our republic. It is only necessary to add that every such broadening of woman's activity has been thrice justified by results.

To the needs of the woman's department of the exposition, which is in wise hands, I invite your attention not less earnestly than to the rest; and, without advocating specific meas-

ures or particular appropriations for any purpose, the available facts not being sufficient to enable me to do so intelligently at this time, I advise you to hear fully such committees as may be entrusted by the different boards of management, to present before you matters of detail out of which you will be able to evolve suitable legislation to secure the great object in view.

I venture, however, specifically to suggest that no more competent and appropriate agency could be found to be entrusted with the work of preparing an exhibit of our state than the state Board of Agriculture. This body is non-partisan and is highly representative, being composed of one member from each congressional district of the state, chosen by the agricultural boards of such districts. The work of preparing for this exhibit will be in line with the work this board has had to do in managing our state fairs and shows of stock, in which work the members have displayed marked ability and gained a valuable experience. The members of the board enjoy the largest measure of public confidence, and the successful management of previous important enterprises amply insures that the interests of our state can not suffer in their hands, and that any funds placed at their disposal will be wisely and economically expended.

THE BALLOT.

There seems to be a well-grounded belief prevailing among the people that votes are bought and sold at the polls, and that other frauds are committed against the ballot whereby the will of the majority is sometimes defeated. It is believed, also, that these crimes are frequently connived at by those claiming a large share of the public confidence, not unfrequently by the beneficiaries of the wrongs committed.

The consequences of ordinary crimes are necessarily confined to a few victims, while he who, by whatever means, commits a fraud upon the ballot, corrupts and poisons political power to its very sources and strikes a blow at the foundations of our free institutions. Severe penalties should be denounced against all such, and they should be brought to speedy punishment.

With the unusual good feeling now existing throughout the state, patriotic men of all parties, will, I trust, unite in the passage of some law that will place a check upon fraud and insure fair elections.

I have heretofore called attention to the fact that it is made by statute unlawful in this state for an elector to sell his vote, and that the statute denounces no penalty against the more guilty and dangerous party who plies the trade of corrupting voters with money. These latter are really more dangerous to society than the man who sells his single vote. The buyer of votes operates in a larger field; he is the more active agent in

crime, and usually represents accomplices of wealth and influence. Justice and policy alike require that this law be changed, and, if it becomes necessary in order to secure convictions, that either should escape, let it be the more ignorant and less responsible offender who sells his vote. I suggest that the law be amended so as to make both parties equally punishable, giving to the prosecutor, when necessary to secure convictions, a discretionary power to say which offender shall be proceeded against, and making the one not prosecuted a competent witness.

There was introduced into the 36th General Assembly, a bill embodying the essential features of what is known as the Australian system of voting. But the General Assembly hesitated, and finally refused to pass the measure because the law was a new one, I am persuaded, and had not been sufficiently tested in this country. Since that time, a number of states have passed laws slightly differing in most instances from each other, but all embodying the main features contained in the bill introduced in the 36th General Assembly. These laws, it is reported, have worked well in the states adopting them, and I therefore, recommend the passage of a similar law by the present General Assembly. Great care, however, should be taken to make the system of voting as plain and simple as possible, in order that the uneducated and more ignorant will find no difficulty in understanding it. It is believed that these measures, if adopted, will tend greatly to purify the ballot and secure fair elections.

CONCLUSION.

Having measurably complied with the requirements of the constitution, in conclusion I express the belief that your deliberations will be guided by wisdom, moderation and patriotism, and that the benefits to result from your wise councils will raise our beloved commonwealth to a yet higher standard of industrial and moral excellence. Upon your labors I invoke the considerate judgment of your fellow citizens and the gracious favor of Almighty God.

JOSEPH W. FIFER.

BIENNIAL REPORT

OF THE

SECRETARY OF STATE

OF THE

STATE OF ILLINOIS,

FOR THE

FISCAL YEARS, BEGINNING OCTOBER 1, 1888, AND ENDING SEPTEMBER 30, 1890.

SPRINGFIELD, ILL.:
H. W. ROKKER, STATE PRINTER AND BINDER,
1891.

REPORT OF SECRETARY OF STATE.

STATE OF ILLINOIS, DEPARTMENT OF STATE,
OFFICE OF SECRETARY OF STATE,
SPRINGFIELD, ILL., OCTOBER 1, 1890.

To His Excellency, JOSEPH W. FIFER, *Governor:*

In conformity with the law defining the duties of the Secretary of State, I have the honor to present herewith my first biennial report, as required by law, also a statement of all fees received by me and paid to the State Treasurer from January 15, 1889, the date on which I assumed the duties of my office, to October 1, 1890, the close of the fiscal year, together with such other matters as are required of me by law.

The fees received by this department for the period above stated and paid into the State treasury have been more than were ever received in the same length of time, amounting to $35,746.27, as follows:

For corporations	$21,699 24
For notarial commissions	5,199 87
For J. P. and P. M. commissions	3,932 00
For miscellaneous fees	4,915 16
Total	$35,746 27

As the law requires that the Secretary of State shall make semi-annual reports to the Governor on the first days of April and October in each year, I herewith give a statement of my reports, as follows:

From January 15, 1889, to April 1, 1889, two and one-half months, I received fees as follows:

For corporations	$2,846 45
Notarial commissions	676 00
J. P. and P. M. commissions	14 00
Miscellaneous fees	581 65
Total	$4,118 10

I paid the above amount to the State Treasurer, April 1, 1889.

For the six months ending September 30, 1889, I received fees as follows:

From corporations	$5,491 08
From notarial commissions	1,526 00
J. P. and P. M. commissions	2,911 00
Miscellaneous fees	1,347 19
Total	$11,275 27

I paid the above amount to the State Treasurer, October 1, 1889.

For the six months ending March 31, 1890, I received fees as follows:

From corporations	$6,709 90
Notarial commissions	1,535 72
J. P. and P. M. commissions	502 00
Miscellaneous fees	1,506 10
Total	$10,253 72

I paid the above amount to the State Treasurer, April 1, 1890.

For the six months ending September 30, 1890, I received fees as follows:

From corporations	$6,651 81
Notarial commissions	1,462 15
J. P. and P. M. commissions	505 00
Miscellaneous fees	1,480 22
Total	$10,099 18

I paid the above amount to the State Treasurer, September 30, 1890.

Total amount paid the State Treasurer, $35,746.27.

I have also received the sum of six hundred and thirty dollars for rent on the dwelling house owned by the State, and have paid the same to the State Treasurer.

PRINTING.

The last General Assembly appropriated thirty thousand dollars to meet the expenses of two years' public printing, of which amount about $10,000 was paid for printing Agricultural and Fat Stock Show Reports of 1886 and 1887, Reports of the Board of Health of 1886, House and Senate Journals of 1887, and other work which should have been printed during the administration of my predecessor, but he was unable to have the work done for the reason that about fourteen thousand dollars of the amount appropriated by the Thirty-fifth General Assembly was in litigation between the Commissioners of State Contracts and the contractor for printing, which amount could not

be used, and lapsed into the treasury on October 1, 1889. There remains on hand of the last appropriation the sum of $7,082.38, which amount will not be sufficient to meet the expenses for the public printing before the next regular appropriation becomes available.

BINDING.

There has been a great increase in the amount of binding done during the last two years, a considerable portion of which increase was the binding of the House and Senate journals of the 35th General Assembly and the reports made thereto, the Agricultural Reports of 1886 and 1887, the Fat Stock Show Reports of same years, Report of the Board of Health of 1886, and other work which had not been bound. There remains on hand at this date the sum of $4,566.07, which will not be sufficient to pay for all the binding until July 1, 1891, when the regular biennial appropriation will become available.

PRINTING PAPER AND STATIONERY.

The itemized account in the succeeding pages shows the amount of paper and stationery bought, and for what purpose. The contract of 1888 was for 3,500 reams of printing paper, but considerably more than that was used on account of the great amount of printing done. The usual appropriation of $15,000 per annum will be necessary to meet the expenses for this purpose.

HEATING.

The usual appropriation of $15,000 per annum was granted by the last General Assembly, of which there is now on hand the sum of $14,506.61, which sum, I think, will be sufficient to meet the expenses of the department until the next regular appropriation can be used. There are three elevators in the building and a high pressure of steam is required to be kept up through the whole year so that they can be used. During the session of the legislature, six engines are connected with the ventilation of the building, which requires a high pressure to be maintained at the boiler-house in order to run the engines. During the last year an electric light plant has been put in, requiring a high pressure of steam to be maintained all the year 'round.

COST OF PRINTING, ETC., UNDER STATE CONTRACTS WHICH EXPIRED SEPTEMBER 30, 1890.

Printing, six classes; binding, paper and stationery, four classes; fuel; copying of laws, journals, etc., and distributing laws and journals, etc.

PRINTING.

First Class.—The work required to be done in this class is the printing (in bill form) of bills, resolutions and other documents.

The contractor for this work was Phillips Bros. The cost of the work under this contract was $4,699.08, for which a settlement in full has been made.

Second Class.—The printing (in book or pamphlet form) of reports, communications, and other documents, and of the volumes of reports.

The contractor for this class of work was The Springfield Printing Company, on which contract there has been work done to the amount of $21,889.51. There has been paid on this contract the sum of $18,956.44, leaving a balance of about $2,933.57 due, for which no final settlement has yet been made.

Third Class.—Printing of the journals of the Senate and House of Representatives.

The contractor for this class of work was Phillips Bros., who assigned their contract to The Springfield Printing Company.

The cost of the work performed under this contract was $6,143.56, for which a full settlement has been made.

Fourth Class.—Printing of the volumes of the laws, with the joint resolutions, which shall be in said volume.

The contractor for this class was Geo. E. Bardeen, who assigned his contract to H. W. Rokker.

The cost of the work done in this class is estimated at $688.54.

Fifth Class.—Printing, stitching, ruling, lining, indexing, and binding of election registers.

The contractor for this class of work was The Springfield Printing Company.

The cost of the work under this contract was $420.

Sixth Class.—All printing not included in first, second, third, fourth and fifth classes.

The contractor for this class of work was Geo. E. Bardeen, who assigned his contract to H. W. Rokker.

The cost of work in this class was $10,080.15, for which settlement in full has been made.

RECAPITULATION.

Phillips Bros., class 1	$4,699 08
Springfield Printing Co., classes 2, 3 and 5	28,453 07
H. W. Rokker, assignee, classes 4 and 6	10,768 69
Total cost of printing for two years ending Sept. 30, 1890 (partly estimated)	$43,920 84

BINDING.

The contractor for the State binding was H. W. Rokker.

The cost of work done under this contract will be about $28,500. This is only an estimate, as the work has not yet been completed. The contractor has been paid, up to date, $27,362.87.

MISCELLANEOUS.

The work of this class consists of ruling blanks, ruling and binding blank books, and padding blanks, etc.

The contractor for this class of work was Enoch Paine.

The work in this class will amount to $3,596.19, but has not yet been completed. There has been paid to date the sum of $3,541.15.

RECAPITULATION.

Binding, estimated	$28,500 00
Miscellaneous	3,596 19
Total cost of all binding for two years ending Sept. 30, 1890 (partly estimated)	$32,096 19

The work done and the materials furnished by each contractor has been satisfactory.

NEW STATE CONTRACTS.

Pursuant to law and in accordance with the advertisement for Proposals for State Contracts, "published in a daily paper in each of the cities of Springfield, Chicago, Peoria, Quincy and Cairo," the Commissioners of State Contracts did on Tuesday, September 2, 1890, in the presence of the Governor, proceed to open the bids which had been received and filed for the various State contracts, and to make awards therefor as follows:

PRINTING.

There were seven bids received and filed by the following: Springfield Printing Company, Phillips Bros., Thos. Rees, H. W. Rokker, S. B. Moody, Wm. M. Bloomer and Enoch Paine.

AWARDS.

First Class—Awarded to Phillips Brothers.

Plain, 20 cents; press work per hundred impressions, 10 cents; binding bills, 1 cents.

Second Class—Awarded to H. W. Rokker.

For rule and figure work, 50 cents; plain, 19 cents; press work per hundred impressions, 8 cents.

Third Class—Awarded to Wm. M. Bloomer.

For stitching, ruling, lining, indexing and binding election registers, 3 cents each.

Fourth Class—Awarded to H. W. Rokker.

For rule aud figure, 18 cents; plain, 18 cents; ruling, 10 cents; padding 2 cents; press work per hundred impressions, 8 cents.

BINDING.

There were seven bids received for doing the state binding, which were filed by the following named persons:

Phillips Bros., Workman Bros. & Co., Springfield Printing Company, Enoch Paine, Thos. Rees, H. W. Rokker, J. M. W. Jones.

The contract for the state binding was awarded to H. W, Rokker, he being the lowest bidder at the following prices:

First class, per volume (irrespective of the number of pages therein) one cent.

Second class, per volume, (irrespective of the number of pages therein) 10 cents.

Third class, per volume, (irrespective of the number of pages therein) 10 cents.

Fourth class, per 100 pages, aggregate count, 2 cents.

Fifth class, plain blank books, extra Russia bands, $6; plain Russia bands, $5; three-quarter binding, $3; half binding, $2.

Blank books, printing headings and binding, extra Russia bands, $9; plain Russia bands, $8; three-quarters binding, $5; half binding, $4.

Blank books, full pages, printing and binding, extra Russia bands, $12; plain Russia bands, $10; three-quarters binding, $8; half binding, $4; for paging blank books any size or style, each 50 cents.

For putting side title on blank books, any size or style of books, each 50 cents.

For indexing or alphabeting blanks books, any size or style, 50 cents each.

For binding books for State Library, per volume, library style, 75 cents; half roan, 75 cents; half Morocco, $1; full Morocco, $1.50; half calf, $1.50; full calf, $2.

For binding in full law sheep, per volume, 75 cents.

For binding Geological, per volume, 45 cents.

For binding Natural History Reports and similar work, per volume, 35 cents.

For binding House and Senate bills, English cloth, per volume, 50 cents.

For binding the original journals of the House and Senate, half binding, per volume, $2.

For folio binding, newspaper size, per volume, $2.

For cutting out pages, per hundred, 10 cents.

For tipping in pages, plates, maps, etc., per hundred, 10 cents.

PAPER AND STATIONERY—FOUR CLASSES.

Class 1—Book and cover paper.

For the furnishing of this paper, six bids were received from the following named persons: Calumet Paper Co., William A. Fowler, Geo. E. Bardeen, J. M. W. Jones, John P. Price, and Bradner, Smith & Co.

This contract was awarded to John P. Price, at $2.35 per ream for 50 pound book paper, and $1.70 per ream for cover paper, he being the lowest bidder.

Class 2—Paper for blanks, blank books, etc.

For furnishing the paper called for in this class, eight bids were received from the following: Calumet Paper Co., William A. Fowler, J. M. W. Jones, John P. Price, F. B. Woodruff, Bradner, Smith & Co., John Morris Co., and Graham Paper Co.

The contract for this class was awarded to the Calumet Paper Co.

Class 3—Paper and stationery.

For furnishing the articles called for in this class, bids were received from J. M. W. Jones and John Morris Co.

The contract for this class was awarded to J. M. W. Jones, he being the lowest bidder in the aggregate.

Class 4—Official letter paper, envelopes and blanks.

For furnishing letter paper and envelopes called for in this class, bids were received from J. M. W. Jones, John Morris Co., Shober & Carqueville Lithograph Co., and Aug. Gast & Co.

The contract for this class was awarded to J. M. W. Jones, he being the lowest bidder in the aggregate.

COPYING LAWS, JOURNALS, ETC.

For copying laws, journals, etc., bids were received from Thomas W. Brown, Geo. S. Clendennin, A. C. Hayden, N. M. Day, and A. H. Magie.

The contract was awarded to N. M. Day, at the rate of two cents per hundred words for House and Senate journals, and one cent per hundred words for laws, resolutions, etc.

DISTRIBUTION OF LAWS, JOURNALS, ETC.

For preparing for distribution of laws, journals, etc., bids were received from James Curtis, Thomas M. Brown, A. H. Magie, and C. M. Partlow.

This contract was awarded to Thomas M. Brown, he being the lowest bidder, at the rate of $149 per annum.

FUEL.

Bids for furnishing bituminous coal for fuel were received from the Springfield Coal Mining and Tile Co., Springfield Junction Coal Co., and the Springfield Coal Association.

This contract was awarded to the Springfield Coal Association, at $1.15 per ton, it being the lowest bid.

As has been the custom heretofore, as soon as the advertisement was published calling for "Proposals for State Contracts," samples were procured, as the law directs, of each kind of paper and each article of stationery required, for the inspection of bidders. The samples of each kind of paper were properly labeled, and each article of stationery also labeled to correspond with the list published, in order that bidders should have all the facilities and information necessary in making their bids, and to secure exact justice between the State and the successful bidders. In accepting or rejecting goods offered for delivery, on contract, the samples are on file in this office, and goods furnished on contract must conform thereto.

AMOUNT OF BONDS REQUIRED.

The Governor and Board of Commissioners of State Contracts fixed the amount of the bonds to be furnished by the several contractors, at the following sums:

Printing, first class	$10,000
" second class	10,000
" third class	5,000
" fourth class	10,000
Binding	10,000
Paper and stationery, each class	10,000
Copying laws, journals, etc	2,000
Distribution of laws, etc	2,000
Fuel	10,000

Contracts and bonds are all on file in this office, except the contract and bond of John P. Price, to whom was awarded the contract for furnishing book and cover paper, "Class one," which has not been filed nor approved by the Board up to this date. The record of the proceedings of the Board of Commissioners of State Contracts is on file in this office.

STATIONERY AND FLAT CAP PAPER.

Amount on hand January 15, 1889	$8,734 74
Amount received under contract to date	3,834 57
Total	$12,569 31

There was issued to the Legislature and the various departments, stationery and flat cap paper as follows:

Thirty-sixth General Assembly	$1,947 30
Auditor	1,419 23
Attorney General	136 08

PRINTING AND COVER PAPER.

The following is a statement of the amount of paper received and issued:

SIXTY POUND BOOK PAPER.

Amount turned over by my predecessor January 15, 1889		521	reams
Amount received from contractor to October 1, 1890		4,692 7/20	"
Total		5,213 7/20	"
Amount issued to contractor for State printing	4,976 reams, 8 quires,	2	sheets
Amount on hand October 1, 1890	236 "	444	"

THIRTY-FIVE POUND COVER PAPER.

Amount turned over by my predecessor January 15, 1889	42 reams		
Amount received from contractor to October 1, 1890	113 "	475	sheets
Total	155 reams,	475	sheets
Amount issued for State work	138 "		
Balance on hand October 1, 1890	17 "	475	"

GEOLOGICAL PAPER.

Amount on hand January 15, 1889	335 reams	244	sheets
Amount received	284 "	456	"
Total	620 reams	220	sheets
Amount issued for State work	616 rms. 2 qu.	8	sheets
Amount issued to State officers	1 ream	20	"
Total	620 rms. 3 qr.	4	sheets
Balance on hand October 1, 1890		144	"

The appropriations made by the last General Assembly for repairs and improvements upon the State House and grounds, are as follows:

The sum of $1,200 was appropriated for the purpose of putting in eight iron columns to support the floor of the Public Library, but I found that the amount was not sufficient to do the work in a good and substantial manner.

As the weight of the iron columns was about 33,600 pounds, it was necessary to build heavy stone foundations in the sub-basement in order to secure a good and permanent foundation.

I let the contract to Messrs. A. L. Ide & Son, for the sum of $1,725, the additional cost of $525 I am permitted to pay out of the appropriation for painting, or any other item for repairs

and improvement upon the State House in which there is an excess, as authorized by the act making this and other appropriations for the repairs and improvements upon the State House. As the work was of such importance, I employed Messrs. Bullard & Bullard, architects, to draw plans and superintend the work which will be of the most substantial character when completed.

The appropriation of $150 for 150 yards of carpet for library rooms, was all expended.

The last General Assembly appropriated the sum of $1,342.20 for the purpose of putting in gutters inside the coping of State House grounds. I let the contract to E. L. Martin, of Decatur, for putting in gutters and for grading and sodding terrace to same, for which I paid him the sum of $1,076.60. The guttering is of manufactured stone made with the best Portland cement. I was obliged to put in three large and three small catch basins to hold the water running from the gutters and to carry it off to the city sewer, with which two connections were made with 18 inch sewer pipe, the cost of these basins, new curbing, iron work, extra labor, etc., amounted to $250.53, leaving a balance on hand of $15.07.

Of the appropriation of $100 for terrace on south side grounds there is a balance of $10 remaining.

The last General Assembly appropriated $6,600 for putting down stone walk from east front capitol building to Second street. I received a number of bids for this contract, which I let to the Culver Marble and Stone Company, for the amount of the appropriation, it being the best bidder. The walks are each 20 feet in width, with terrace 30x72 feet, all of good stone 6 inches in thickness, with steps thereto, also steps 72 feet wide at Second street entrance, with a cross walk of ten feet in width inside. All the walks are laid on a thick bed of cinders and sand in a good and substantial manner.

There was appropriated by the last General Assembly the sum of $387,60 for the purpose of building a stone walk from the west front of the State House to Spring street. I have let the contract for the walk to be 10 feet in width, stone to be 6 inches in thickness, and the work is now being done and will be completed in a short time.

Of the appropriation of $400 for trees, I have expended $143.04, leaving a balance of $256.96 unexpended.

There was appropriated by the last General Assembly the sum of $600 for hydrants, etc. I put in eight hydrants, or street washers, and 1,510 feet of pipe, purchased 200 feet of hose, couplings, hose carts, etc., for the sum of $516.15, leaving a balance of $83.85 of said appropriation.

The appropriation of $375, for hauling dirt and grading grounds was all expended. Nearly all of it was used on the east side of the grounds in hauling out broken stone, brick, cinders, etc., and replacing it with soil, and sodding same.

The last General Assembly appropriated the sum of $4,000, for painting and repairing the outside wood-work of the State House. I received several estimates of the cost of this work, and the lowest being much more than I thought the work could be done for, I purchased the best materials, engaged an experienced man as superintendent, and employed painters to do the work, put on two good coats of paint, reputtied glass in windows, oiled and varnished all outside doors, built scaffolding and ladders, purchased brushes and all materials, for the sum of $1,108.78, leaving a balance of $2,891.22 of said appropriation.

The last General Assembly appropriated $4,000 for the purpose of purchasing dynamos and other machinery and appliances for lighting the State House.

I let the contract for putting in two 25-light dynamos, one 50-horse power engine and other appliances, for the sum of $3,178; for putting in concrete floor in dynamo room, wainscotting, purchase of carbons and other materials, there has been expended the sum of $363.84, leaving a balance of $458.16 on hand.

APPROPRIATION FOR VAULTS, ETC.

There remained on hand at last report of my predecessor, the sum of $925.87 for fitting up vaults, etc., and the last General Assembly appropriated the sum of $1,250 additional for the purpose of finishing the fitting up of the vaults of this office with fire proof iron boxes, book racks, etc., which work was let to the Fenton Metallic Manufacturing Company, who put in 995 file boxes, 30 cupboards and 27 corner shelves, all of iron, in a very good and satisfactory manner, for the sum of $1,972.25. I paid out $12 in addition to the above for the purpose of carpeting the vault floor, leaving a balance on hand of $191.62.

THE INDEX DEPARTMENT AND DOCUMENT LIBRARY.

In his final report my predecessor, in speaking of this department, used the following language:

"I am not disposed to exaggerate the value and importance of the index department, and, as I shall soon retire from this office after an eight years' incumbency, I cannot be charged with any selfish motive in speaking of its usefulness. The Secretary of State is the legal custodian of the more important archives of the State Government. He is under heavy bonds for the safe keeping of the files and records in his charge.

"In the nature of things the Secretary of State cannot give his personal attention to the safety and security of the files and records of his office, the value of which cannot be measured in money. The whole time and

attention of his chief clerk is taken up with other duties. He must then rest his responsibility and quiet his concern as to the absolute safety of these papers somewhere. He must feel assured that they are not exposed to mutilation, defacement, loss or destruction at any time. The fact is, and it connot well be otherwise, that while the Secretary of State is the legal, the index department is the actual custodian of the original papers, records and documents of his office, and by the consolidation of the State document library with it, it also becomes custodian of the printed documents as well. Nor does the responsibility end with their safe keeping and preservation.

"The papers in this office are continually being referred to and constantly added to. They require constant watching and careful handling to prevent misplacement and confusion. They must be placed in the special charge of some one whose particular business it is to see that they are carefully handled and returned to their proper place among the files.

"The index department was created and exists, among other things, for this purpose. The department is now performing its office in an excellent manner. No better use can be made of public money, to the amount reasonably necessary, than in properly caring for and preserving the archives of the State department."

After an experience of two years in office I can give the above my hearty endorsement. What the counting house is to the mercantile, manufacturing or commercial establishment the index department is to the executive department of the State governernment. It is not only a valuable adjunct but a necessary factor in the transaction of the public business, and in the conservation of the political history of the State it is indispensable. There is nothing ornamental about it.

Appropriations were made in 1887 and again in 1889, for furnishing the two fire-proof vaults connected with this office. These appropriations, that of 1889 under my direction, have been expended for the purpose intended and both vaults are now furnished with metallic cases and chests equal to the best in use. Much of the time of the clerks in the index department, when not employed in the current work of the office, has been employed in rearranging the files and record books necessary in making a change from the old to the new furniture, and that work is still in progress. The correspondence in the Governor's office from 1869 to 1889, made during the administrations of Governors Palmer, Beveridge, Cullom, Hamilton and Oglesby, have been chronologically arranged and filed away. A portion only of the legislative files, similarly arranged, have been completed and filed, and the same is true of those files in the Secretary of State's office, which are kept in what is known as the "lower vault." In order to relieve the overcrowded condition of the vaults, a large mass of less important papers were removed from the vaults and safely, and reasonably convenient of access, filed away in one of the basement rooms which was specially fitted up for that purpose by using the old furniture which had been in the vaults. Thus relieved, I estimate that the vaults will furnish space for the files and records for the next fifty years.

I can assure the General Assembly that the appropriation made two years ago for the work in the index department, has been applied in a manner that will benefit the public service for

all time. An appropriation should be made for the care and cataloguing of the State document library. This library may well be the pride of the State.

A few only of the printed documents of the State are missing from the shelves of the library, and it is not only possible but probable that these will yet be recovered and the sets completed. A complete catalogue of the books should be made and it is to be hoped that the Legislature will provide the necessary means for this purpose.

Please find hereto appended, and made part of this report, itemized statements of appropriations disbursed under my direction, and for which I am officially responsible.

Respectfully submitted,

I. N. PEARSON,
Secretary of State.

OFFICE EXPENSES.

BIENNIAL REPORT

OF THE

AUDITOR OF PUBLIC ACCOUNTS,

TO THE

GOVERNOR OF ILLINOIS.

NOVEMBER 1, 1890.

SPRINGFIELD, ILL.:
H. W. ROKKER, STATE PRINTER AND BINDER.
1890.

BIENNIAL REPORT.

AUDITOR'S OFFICE, ILLINOIS,
SPRINGFIELD, November 1, 1890.

To HON. JOSEPH W. FIFER, *Governor of Illinois:*

SIR—I have the honor to submit herewith a report of the transactions of the Revenue Department of my office for the fiscal years ending September 30, 1889, and September 30, 1890.

The arrangement is by tabular statements, as follows:

1. Receipts and disbursements of General Revenue Fund.
2. Receipts and disbursements of Special State Funds.
3. Detail of warrants drawn on the Treasury for all purposes.
4. Recapitulation of warrants drawn on the Treasury.
5. Warrants outstanding October 1, 1888, and September 30, 1890.
6. Condition of School, College and Seminary Funds.
7. Fees collected and paid into the State Treasury.
8. Summary of the State Treasurer's account with the several State Funds.
9. School Tax Fund and Interest on the School Fund, distributed to the several counties, for the years 1888 and 1889.
10. Aggregate amount of State taxes charged on tax books for the year 1888, the amount of abatements, commissions, etc., the net amount collected, and the amount received at the State Treasury on account thereof.
11. Aggregate amount of State taxes charged on tax books for the year 1889, the amount of abatements, commissions, etc., the net amount collected, and the amount received at the State Treasury on account thereof.
12. School Fund tax charged on the tax books of 1888, showing the abatements and net amount realized to State Treasury, etc.
13. School Fund tax charged on the tax books of 1889, showing the abatements and net amount realized to State Treasury, etc.
14. State, County and Local taxes charged on the tax books of 1888.
15. State, County and Local taxes charged on the tax books of 1889.

16. Statement showing the per cent. of forfeitures and insolvencies on account of State tax, for the years 1870, 1875, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888 and 1889, in the various counties.
17. Statement showing per cent. of total amount of State tax collected for the years 1870 to 1889, inclusive, paid by each of the various counties.
18. Statement showing the average rate of taxation in the several counties for the years 1882 to 1889, inclusive.
19. Statement of property assessed in the several counties for the year 1889.
20. Rate per cent. of addition to or deduction from the assessed value of each class of property in each county of the State, as determined by the State Board of Equalization, on the assessment of 1889.
21. Railroad property in the several counties, as assessed and equalized for the year 1889.
22. Aggregate equalized assessment of Railroad property for the year 1889.
23. "Capital Stock" assessments made by the State Board of Equalization for the year 1889.
24. Statement of the equalized assessment of all taxable property in the several counties for the year 1889.
25. Statement of property assessed in the several counties for the year 1890.
26. Rates per cent. of addition to or deduction from the assessed value of each class of property in each county in the State, as determined by the State Board of Equalization, on the assessment of 1890.
27. Statement showing the proportion of the total equalized assessments of taxable property in the various counties, for the years 1878 to 1890, inclusive, assessed on *Real* and *Personal* property, respectively.
28. Statement of the aggregate equalized assessments of taxable property in the several counties in the State for the years 1873 and 1878 to 1890 inclusive.
29. Railroad property in the several counties, as assessed and equalized for the year 1890.
30. Aggregate equalized assessment of Railroad property for the year 1890.
31. "Capital Stock" assessments made by the State Board of Equalization for the year 1890.
32. Statement of the equalized assessment of all taxable property in the several counties for the year 1890.
33. Statement of Bonds issued by Counties, Townships, Cities and Towns, registered in Auditor's office, in pursuance of an act entitled "An act to fund and provide for paying the Railroad Debts of Counties, Townships, Cities and Towns," in force April 16, 1869.
34. Statement of Bonds registered in pursuance of the original act of February 13, 1865.
35. Statement of Bonds registered in pursuance of the act of February 13, 1865, as amended by acts of April 27, 1877, and June 4, 1879.

36. Statement of Drainage District Bonds registered in pursuance of the act of June 27, 1885.

37. Statement of Bonds issued by Commissioners of Sny Island Levee (of Adams, Pike and Calhoun counties) in pursuance of act of April 24, 1871, and registered in the Auditor's office under act of April 9, 1872.

38. Abstract of the accounts of the State Treasurer with the several Local Registered Bond Funds of Counties, Townships, Cities and Towns.

39. Aggregate amount of taxes charged on account of Local Bond Funds, the amount of abatements, commissions, etc., and the amount paid over by Collectors for each locality, for the year 1888.

40. Aggregate amount of taxes charged on account of Local Bond Funds, the amount of abatements, commissions, etc., the net amount collected, the amount paid State Treasurer, and the amount remaining unpaid for each locality, for the year 1889.

41. Statement of the condition of Trust Companies as shown by report of examinations.

42. Table of balances of Appropriations made by the Thirty-fifth General Assembly, unexpended October 1, 1888, amount of warrants since drawn thereon, and amounts which lapsed into Treasury September 30, 1889.

43. Table of Appropriations made by the Thirty-sixth General Assembly, showing amount of warrants drawn thereon, respectively, and balances unexpended September 30, 1890.

44. Statement showing the condition of State Banks as shown by quarterly reports made to the State Auditor.

45. Statement of awards made by the Commission of Claims.

SUMMARY OF RECEIPTS AND DISBURSEMENTS AT THE STATE TREASURY.

STATE TAXES LEVIED.

The Thirty-sixth General Assembly, by "An act to provide the necessary revenue for State purposes," approved May 27, 1889, authorized taxation to raise for *General State purposes* one million seven hundred thousand dollars on the assessment for the year 1889, and one million seven hundred thousand dollars on the assessment for the year 1890; and for *State School purposes*, one million dollars on the assessment for each of the years 1889 and 1890.

The rates per cent. required to produce the amounts thus authorized to be raised were, in accordance with the provisions of said act, computed by the Governor and Auditor, as follows: On each one hundred dollars of the equalized assessment for the year 1889, for general State purposes, twenty-four cents; for State school purposes, fourteen cents. On each one hundred dollars of the equalized assessment for the year 1890, for general State purposes, twenty-two and one-half cents; for State school purposes, thirteen and one-half cents, thus making the aggregate rate of State tax for 1889 thirty-eight cents, and for 1890 thirty-six cents.

AGGREGATE OF TAXES CHARGED ON TAX BOOKS FOR 1888 AND 1889.

For the year 1888.		For the year 1889.	
State taxes	$3,526,608 19	State taxes	$3,075,600 55
County taxes	4,807,655 76	County taxes	5,048,138 42
Registered Bond Fund taxes	1,637,865 48	Registered Bond Fund taxes	1,435,025 44
City taxes	8,298,602 02	City taxes	8,902,086 11
Town, District, etc., taxes	12,260,252 08	Town, District, etc., taxes	12,360,093 06
Total	$30,470,983 53	Total	$30,820,943 58

STATE BONDED DEBT.

The principal of the bonded debt of the State outstanding October 1, 1888, was $23,100.00.

On the 29th day of January, 1890, New Internal Improvement Stock Interest Bonds Nos. 2547, 2548 and 2549, for $1,000.00 each, and No. 2550, for $600.00—amounting in the

aggregate to $3,600.00—payable after 1877—were paid under special appropriation made by act approved May 25, 1889, leaving the bonded debt of the State outstanding October 1, 1890, $19,500.00.

The bonds called in by the Governor's proclamation, which have ceased to draw interest, but have not yet been surrendered, are as follows:

New Internal Improvement Stock	$4,000 00
New Internal Improvement Interest Stock, payable after 1877	500 00
1 Refunded Stock Bond, payable after 1877	1,000 00
1 Old Internal Improvement Bond	1,000 00
13 Canal Bonds	13,000 00
Total	$19,500 00

ILLINOIS CENTRAL RAILROAD FUND—REPORTS OF GROSS EARNINGS AND PAYMENTS TO THE STATE.

The following figures will show the amount of gross earnings of the Illinois Central Railroad, and the amount of five and seven per cent. thereon, paid into the State Treasury for each six months, beginning with the first report and payment, and embracing all subsequent semi-annual reports and payments which have been made by said Company up to the date of this report:

City of Quincy has	3,000 00
Hancock county has	1,000 00
Total	$13,000 00

TRUST COMPANIES.

Since the last report of this department, four additional corporations have made the deposit with the Auditor required by the provisions of "An act to provide for and regulate the administration of trusts by trust companies," approved June 15, 1887, as amended by act approved June 1, 1889, making a total of five corporations that are now competent to act under said law, as trustee, receiver, assignee, guardian, conservator, executor or administrator.

Said companies are as follows:

Illinois Trust and Savings Bank	Chicago.
The American Trust and Savings Bank	"
The Jennings Trust Company	"
The Northern Trust Company	"
Title, Guarantee and Trust Company	"

Each of the above corporations have made the annual reports to this department required by law, and have been subjected to an annual examination.

Said examinations have shown said companies to be in a satisfactory condition and the results thereof will be found on pages 294-297 of this report.

BANKING CORPORATIONS.

Under the provisions of "An act concerning corporations with banking powers," approved June 16, 1887, which was ratified by vote of the people on November 6, 1888, and took effect December 6, 1888, the responsible duty of the supervision of State banks was imposed upon this department. Upon the taking effect of said act steps were at once taken to ascertain what corporations with banking powers were existing under the provisions of special charters, as under said act such corporations are made subject to its provisions and requirements in every particular, as if organized thereunder.

It was ascertained that the following banks were existing under special charters, and thus made subject to State supervision:

Name.	Location.	Capital Stock.
Alton Savings Bank	Alton	$100,000 00
Bank of Illinois	Chicago	100,000 00
Chicago Trust and Savings Bank	"	350,000 00
Corn Exchange Bank of Chicago	"	1,000,000 00
Dime Savings Bank	"	69,475 00

The State Bank of Jerseyville	Jerseyville	25,000 00
The State Bank of Woodstock	Woodstock	25,000 00

It will be seen from the foregoing list that an active interest has already been taken, and confidence manifested, in the State banking system.

Out of the fifty-four permits issued as above, twenty-four banks have completed their organization and are now operating under the law.

Section 8, of said act, provides, "The Auditor, as often as he shall deem necessary or proper, and at least once in each year,

shall appoint a suitable person or persons to make an examination of the affairs of every bank established under the provisions of this act, which person shall not be a stockholder or officer or employé of any bank which he may be directed to examine, and who shall have power to make a thorough examination into all the affairs of the bank, and in so doing to examine any of the officers or agents or employés thereof, on oath, and shall make a full and detailed report of the condition of the bank to the Auditor," and section 12 further provides "that any corporation with banking powers availing itself of or accepting the benefits of, or formed under this act, and all corporations with banking powers existing by virtue of any special charter or general law of this State, shall be subject to the provisions and requirements of this act in every particular, as if organized under this act."

In pursuance with these provisions regular examinations have been made, under the direction of the department, of all State banks, whether organized under special charters or the banking act, and full reports thereof have been filed in this office.

Said examinations have revealed the banks, generally, to be in a healthful and prosperous condition.

Quarterly reports are also required under the law and these have been furnished by each of the banks when called upon by this department.

On pages 308-341 of this report detailed statements will be found of the condition of the various banks, as shown by their sworn statements.

The following table shows the aggregate resources and liabilities of all State banks as reported to this office February 15, 1889, and October 8, 1890:

RESOURCES.	As shown by reports made Feb. 15, 1889.	As shown by reports made Oct. 8, 1890.

Notes and bills re-discounted	89,440 59	.....
Bills payable	138,050 00	.....
Totals	$34,254,424 61	$68,825,199 34

At the time of the report of February 15, 1889, there were twenty-six banks with an aggregate capital paid in of $5,831,-225.00, and at time of report of October 8, 1890, there were fifty banks with an aggregate capital paid in of $10,212,-500.00.

Important amendments were made by the Thirty-sixth General Assembly to said act, which if ratified by the people at the general election to be held November 4, 1890, will greatly improve said law, by placing it more in harmony with the constitutional provisions regarding banking, and by making specific provisions for the organization of banks in all classes of cities and towns throughout the State, with proper restrictions regarding capital stock required, according to population.

The supervision of banking corporations by the State, including inspections and examinations, reports and the administration of the law regulating the operations of such corporations, has been productive of such results during the past two years as demonstrate to my mind beyond question the wisdom of such a policy on the part of the State.

The law will admit of further amendments which will render it more effective, and such will be necessary as the banking interests of the State continue to grow and develop.

AWARDS OF COMMISSION OF CLAIMS.

In compliance with the provisions of section 5 of "An act to create a Commission of Claims, and to prescribe its powers and duties, approved May 29, 1887, as amended by act of June 3, 1889," I herewith submit a statement of the awards made by said Commission, amounting in the aggregate to $3,033.00. A detailed statement of said awards will be found on page 342-343 of this report.

C. W. PAVEY,
Auditor of Public Accounts.

MICHIGAN STATE LIBRARY
OCT 12 1904
LANSING, MICH

No. 24.—*Statement of the Equalized Assessment of all Taxable Property in the State of Illinois for the year 1889, as Equalized or Assessed by the State Board of Equalization, showing the valuation of the several classes of property in each County.*

Counties.	Assessed in Counties by Local Assessors.						Assessed by State Board of Equalization.		Total equalized value of property assessed for the year 1889.
	Assessed value of lands, lots and personal property, including railroad property assessed by local assessors.	Average rate per cent. of addition or deduction.		Net amount added.	Net amount deducted.	Equalized value of property assessed by local assessors.	Equalized value of railroad track, rolling stock, and improvements on right of way.	Equalized value of capital stock of corporations other than railroads.

BIENNIAL REPORT

OF THE

STATE TREASURER,

TO THE

GOVERNOR OF ILLINOIS.

NOVEMBER 1st, 1890.

SPRINGFIELD, ILL.:
H. W. ROKKER, STATE PRINTER AND BINDER.
1890.

TREASURER'S REPORT.

STATE OF ILLINOIS, TREASURER'S OFFICE,
SPRINGFIELD, November 1, 1890.

JOSEPH W. FIFER, *Governor of Illinois:*

SIR: In compliance with the law, I have the honor to submit herewith a report of the receipts and disbursements of the State Treasury, for the fiscal years commencing October 1, 1888, and ending September 30, 1890.

The following statements contain a general account of the business transactions of this office during that period, viz.:

1. Statement of receipts and disbursements of State Treasury, from October 1, 1888, to September 30, 1890, inclusive, and of balances on hand.

2. Statement of State Treasurer's accounts with the different funds, showing receipts and disbursements of State Treasury for each month, from October 1, 1888, to September 30, 1890, inclusive.

3. Recapitulation of State Treasurer's accounts with the different funds, from October 1, 1888, to September 30, 1890, inclusive.

4. Statement of the bonded debt of the State of Illinois, outstanding October 1, 1890.

5. Statement of securities deposited with the State Treasurer by Life Insurance Companies.

6. Statement of the gross earnings of the Illinois Central Railroad, from March 24, 1855, to April 30, 1890, inclusive, and amount paid into State Treasury on account thereof.

RECEIPTS AND DISBURSEMENTS.

STATE BONDED DEBT.

The principal of the bonded debt of the State outstanding October 1, 1888, was $23,100.

On the 29th of January, 1890, $3,600 of New Internal Improvement Stock Interest Bonds, payable after 1877, (viz.: Numbers 2,547, 2,548 and 2,549 for $1,000 each, and Number 2,550 for $600), were paid under special appropriation made by act approved May 29, 1889, leaving the bonded debt of the State outstanding October 1, 1890, $19,500.

The bonds called in by Governor's proclamation, which have ceased to draw interest, but have not yet been surrendered, are as follows:

New Internal Improvement Stock	$4,000 00
New Internal Improvement Interest Stock, payable after 1877	500 00
1 Refunded Stock Bond, payable after 1877	1,000 00
1 Old Internal Improvement Bond	1,000 00
13 Canal Bonds	13,000 00
Total	$19,500 00

Very respectfully,

CHARLES BECKER,
State Treasurer.

No. 1.

Statement of receipts and disbursements of State Treasury, from October 1, 1888, to September 30, 1890, inclusive, and of balances on hand.
